Jiulian Resources Inc.
Notes to the Interim Financial Statements
For the three and nine months ended November 30, 2010

Note 1 NATURE AND CONTINUANCE OF OPERATIONS

Jiulian Resources Inc. (the "Company") was incorporated on October 17, 2006 under the laws of British Columbia. The Company was a capital pool Company as defined in the TSX Venture Exchange (the "Exchange") Policy 2.4. On July 28, 2009, the Exchange accepted for filing the Company's Qualifying Transaction, as a result, the Company resumed trading as a Tier 2 mining company under the symbol "JLR", on August 26, 2009. The Company is now pursuing opportunities in the acquisition, exploration and development of mineral resource properties.

The accompanying unaudited interim financial statements are prepared in accordance with Canadian Generally Accepted Accounting principles ("Canadian GAAP"). They do not include all of the information and disclosures required by Canadian GAAP for annual financial statements. The preparation of these interim financial statements is based on accounting principles and practices consistent with those used in the preparation of the annual financial statements. In the opinion of management, all adjustments considered necessary for fair presentation have been included in these financial statements. Operating results for the period ended November 30, 2010 are not necessarily indicative of the results that may be expected for the full year ended February 28, 2011. For further information, see the financial statements including the notes thereto for the year ended February 28, 2010.

The Company is in the process of exploring its mineral properties and has not yet determined whether the properties contain reserves that are economically recoverable. The recoverability of the amounts shown for mineral property and related deferred exploration costs are dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete the development of the reserve, the achievement of profitable production, or alternatively upon the Company's ability of dispose of its interests on an advantageous basis. Changes in future conditions could require material write-downs of the carrying values. In addition, although the Company has taken steps to verify title to the properties on which it is conducting exploration and in which it has an interest, in accordance with industry standards for the current stage of exploration of such property, these procedures do not guarantee the Company's title. property title may be subject to unregistered prior agreements and non-compliance with regulatory requirements.

The Company's exploration activities are subject to various federal, provincial laws and regulations governing the protection of the environment. These laws and regulations are continually changing and generally becoming more restrictive. The Company conducts its operations so as to protect public health and the environment and believes its operations are materially in compliance with all applicable laws and regulations. The Company has made, and expects to make in the future, expenditures to comply with such laws and regulations.
