

FORM 51-102F1
Management Discussion and Analysis
Jiulian Resources Inc.
For the three and nine months ended November 30, 2015

Date: January 28, 2016

Overview

The following Management's Discussion and Analysis ("MD&A") provides relevant information on the operations and financial condition of Jiulian Resources Inc., ("Jiulian" or the "Company") for the period ended November 30, 2015. This MD&A has been prepared as of January 28, 2016 and includes information up to that date.

The following MD&A should be read in conjunction with the Company's unaudited condensed interim financial statements for the period ended November 30, 2015 and the audited financial statements of the Company for the year ended February 28, 2015, together with the accompanying notes that form part of the statements. The financial statements and the notes therein have been prepared in accordance with International Financial Reporting Standards ("IFRSs"). All amounts are expressed in Canadian dollars unless otherwise stated. Additional information may be found on SEDAR at www.sedar.com and www.jiulianresources.com.

Forward-Looking Information

The information set forth in this MD&A may contain statements concerning future results, future performance, intentions, objectives, plans and expectations that are, or may be deemed to be, forward-looking statements. These statements concerning possible or assumed future results of operations of the Company are preceded by, followed by or include the words 'believes,' 'expects,' 'anticipates,' 'estimates,' 'intends,' 'plans,' 'forecasts,' or similar expressions. Forward-looking statements are not guarantees of future performance. These forward-looking statements are based on current expectations that involve numerous risks and uncertainties, including, but not limited to, those identified in the "Risks and Uncertainties" section. Assumptions relating to the foregoing involve judgments with respect to, among other things, future economic, competitive and market conditions and future business decisions, all of which are difficult or impossible to predict accurately and underlie the forward-looking statements as reasonable assumptions, any of which could prove inaccurate. These factors should be considered carefully, and readers should not place undue reliance on forward-looking statements.

Within this MD&A, the Company has specifically noted the forward-looking nature of comments where applicable. Generally, readers should be aware that forward-looking statements included or incorporated by reference in this document include statements with respect to:

- The Company's acquisition strategy, including the basis upon which the Company will evaluate acquisition criteria and the benefits associated with an acquisition.
- The Company's ability to carry out exploration programs.
- Expectations regarding the ability to raise capital to fund future working capital requirements.

Although the forward-looking statements contained in this MD&A are based on what we consider to be reasonable assumptions based on information currently available to us, there can be no assurance that actual events, performance or results will be consistent with these forward-looking statements, and our assumptions may prove to be incorrect. These forward-looking statements are made as of the date of this MD&A. As required by applicable securities legislation, as a reporting issuer, it is the Company's policy to update forward-looking information in its periodic management discussions and analyses, as required from time to time, and provide updates on its activities to the public through the filing and dissemination of news releases and material change reports.

Description of Business and Overall Performance

The Company is engaged in the business of acquisition and exploration of mineral resource properties in British Columbia, Canada. The Company's focus is to explore for and locate economic mineral deposits in areas that are in proximity to existing and past producing mines and resource-based infrastructure. The Company's objective is to partner or sell such deposits to a larger mining company for development and operation or under certain conditions, carry the project to production.

The Company was incorporated on October 17, 2006 under the laws of British Columbia as a Capital Pool Company ("CPC") as defined in CPC Policy 2.4 of the TSX Venture Exchange (the "Exchange"). The Company completed its initial public offering ("IPO") on June 19, 2007, and its shares were listed and commenced trading on the Exchange on June 21, 2007, under the symbol "JLR.P".

On July 28, 2009, the Exchange accepted for filing the Company's Qualifying Transaction.

On August 26, 2009, the Company resumed trading on the Exchange as a Tier 2 mining company under the symbol "JLR" and the Company was no longer considered a Capital Pool Company.

As a junior mineral exploration company, the Company's core assets are the exploration rights to its exploration and evaluation properties. The Company's current objective is to seek out and acquire prospective mineral exploration properties in North America with the view to exploring and developing the properties.

The Company currently has no producing properties, and consequently no operating income or cash flow. The Company is dependent on the equities markets to finance all of its activities and it is anticipated that it will continue to rely on this source of funding for its exploration expenditures and to meet its ongoing working capital requirements.

In the opinion of management, all adjustments consisting of normal recurring adjustments, considered necessary for a fair presentation of the Company's financial position, results of operations and cash flows, have been included. The Company has not commenced operations and therefore, no segmented information is available.

The Company entered into an Option Agreement dated March 31, 2009, (the “Agreement”) to earn up to a 65% interest over a period of three years from Happy Creek Minerals Ltd. (“Happy Creek”) in the mineral properties known as the Hawk Property and the Grey Property, located in the Clinton Mining Division, in the Province of British Columbia (together, the “Property”). Under the Agreement, JLR has been granted, subject to an existing 2.5% net smelter return on the Hawk Property and an existing 2% net smelter return on the Grey Option, exclusive rights to acquire an undivided 55% legal and beneficial interest in the Property by making aggregate cash payments of \$150,000 (\$45,000 paid), issuing an aggregate of 700,000 shares (200,000 shares issued) to Happy Creek and incurring aggregate exploration expenditures on the Property of \$700,000.

Having received no encouraging results from exploration activities conducted on the Property, on January 25, 2011, the Company announced that it has decided to abandon its work on the Hawk Property and to return the property to Happy Creek Minerals Ltd., the optionor, having fulfilled all obligations there under and to identify and pursue other opportunities.

Gunpoint Properties

The Company entered into an agreement dated effective January 25, 2011, amended March 30, 2011 (the “Agreement”), pursuant to which JLR will acquire from Gunpoint a 100% interest in Gunpoint’s Big Kidd and Little Fort claims groups in the Kamloops and Nicola Mining Districts in British Columbia (the “Acquisition”). The purchase price for these two groups of claims is a cash payment to Gunpoint of \$100,000 (paid) and the issuance 1,875,000 common shares (issued) of JLR. JLR’s title to the Big Kidd and Little Fort claims will be subject to a 2.5% net smelter return royalty in favor of Gunpoint and applicable Crown royalties. Gunpoint and JLR are at arm’s length to each other. TSX Venture Exchange (“TSXV”) granted a conditional approval to JLR on March 4, 2011. The key condition is to request JLR to provide a NI43-101 report. Mr. Peter Folk, P. Eng. completed and submitted his NI43-101 report to TSXV for review and conditional approval on May 12, 2011. TSXV’s final approval was given on July 12, 2011.

About the Big Kidd Property

The Big Kidd property comprises four contiguous mineral tenures totaling 4,055.77 hectares and is located 20 kilometers southeast of the city of Merritt, B.C. The property is centered upon latitude 49°57 north and longitude 120°37’ west. The exploration target at the Big Kidd property is alkali porphyry type copper-gold deposit.

About the Little Fort Property

The Little Fort property consists of 12 mineral tenures for a total area of 8,654 hectares and is located approximately 25 kilometers to the northwest of the town of Little Fort, B.C. The property is centered upon latitude 51°29’33” north and longitude 120°23’42” west. The exploration targets at the Little Fort property include alkali porphyry type copper-gold, skarn type copper-gold and quartz vein type gold deposits.

About Gunpoint Exploration Ltd.

Gunpoint is a publicly traded mineral exploration company (TSXV: GUN). For a more complete business and financial profile of the Company, interested parties are encouraged to visit the Company's website, www.gunpointexploration.com.

Option the Big Kidd property to Xstrata Copper Canada Corporation

On October 14, 2011, the Company entered into an agreement with Xstrata Copper Canada Corporation ("Xstrata") allowing Xstrata the option to earn up to a 75% interest in the Big Kidd property.

Under the terms of the agreement, Xstrata may earn an initial 51% interest by making staged cash payments to Jiulian totaling \$180,000 (\$50,000 received) and incurring cumulative exploration expenditures totaling \$3 million over a four year period. Upon vesting at a 51% interest in the property, a joint venture will be formed and Xstrata will maintain the right to earn a further 24% interest (75% interest total) by funding the completion of a feasibility study or incurring \$15 million in expenditures towards the completion of a prefeasibility study and a feasibility study on the property. The Company received the approval of the Exchange on October 21, 2011.

On June 25, 2013, the Company announced that it had been advised that as a result of recent corporate restructuring, Xstrata Copper Canada Corporation had elected to terminate the Big Kidd option agreement. The subject property and drill core were returned to the Company in August 2013.

Impairment and Write-off of Gunpoint Properties

During the year ended February 28, 2015, due to prevailing junior resource market conditions, the uncertainty associated with the Company's ability to exploit any future economic benefits from the property and the Company not having sufficient funds to spend on its exploration program, the Company recorded an impairment of \$189,437 with respect to the Big Kidd Property and \$283,710 related to the Little Fort Property.

Rugged Mountain

During the period ended November 30, 2015, the Company conducted preliminary study of the Rugged Mountain area and incurred expenditures of \$2,545 which were expensed in the statement of loss and comprehensive loss.

The following table shows exploration expenditures as at November 30, 2015:

	Big Kidd Property	Little Fort Property	Total
	\$	\$	\$
Balance at February 28, 2014	186,308	277,249	463,557
Exploration costs			
Assays	-	1,254	1,254
Geological and field expenses	3,510	7,088	10,598
Storage fees	1,500	-	1,500
Recoveries	(1,881)	(1,881)	(3,762)
Impairment	(189,437)	(283,710)	(473,147)
Balance at February 28, 2015 and November 30, 2015	-	-	-

Selected Annual Information

In CAD\$	Years Ended		
	February 28, 2015	February 28, 2014	February 28, 2013
Net Revenue	\$-	\$-	\$-
Operating Expenses	\$(111,969)	\$(158,923)	\$(127,299)

Total Assets	\$564,776	\$1,134,812	\$1,227,982
Total Long Term Financial Liabilities	\$-	\$-	\$-

Results of Operations

The Company incurred a net loss of \$10,950 and \$57,312 for the three and nine months ended November 30, 2015, respectively (November 30, 2014: \$15,676 and \$59,562, respectively). As at November 30, 2015, the Company's deficit was \$1,864,505 (February 28, 2015: \$1,807,193).

For the three and nine months ended November 30, 2015 The Company incurred general and administrative expenses of \$12,314 and \$61,511, respectively (November 30, 2014: \$17,269 and \$69,041, respectively), which was offset partially by interest income of \$1,364 and \$4,199 (November 30, 2014: \$1,593 and \$9,479, respectively).

The following is the breakdown of the general and administrative expenses:

	Three Months Ended November 30,		Nine Months Ended November 30,	
	2015	2014	2015	2014
Accounting	\$500	-	\$7,793	-
Amortization (Note6)	247	431	1,027	1,293
Automobile	-	-	2,197	1,863
Bank charges and interest	42	43	164	164
Consulting Fees (Note 9)	5,750	6,000	25,250	35,750
Filing and transfer agent fees	3,379	4,200	8,912	11,049
Legal	271	813	373	1,525

Office and administration	-	784	395	1,228
Rent	1,500	2,400	4,500	7,200
Salary and benefits (Note 9)	-	2,598	4,382	8,167
Travel and meals	-	-	3,973	802
Total general and administrative expenses	\$12,314	\$17,269	\$61,511	\$69,041

Summary of Quarterly Results

The following is a summary of selected financial data for the Company for the eight most recently completed quarters.

	For the quarters ended			
	Nov. 30, 2015	Aug. 31, 2015	May 31, 2015	Feb. 28, 2015
Total interest income	\$1,364	\$1,323	\$1,512	\$-
Net loss	(\$10,950)	(\$37,121)	(\$9,241)	(\$521,129)
Basic and diluted loss per share	(\$0.00)	(\$0.00)	(\$0.00)	(\$0.04)

	For the quarters ended			
	Nov. 30, 2014	Aug. 31, 2014	May 31, 2014	Feb. 28, 2014
Total interest income	\$1,593	\$3,095	\$1,906	\$1,062
Net loss	(\$17,269)	(\$30,339)	(\$9,785)	(\$29,749)
Basic and diluted loss per share	(\$0.00)	(\$0.00)	(\$0.00)	(\$0.00)

Compared with the immediate preceding quarter, the decrease of net loss for the quarter ended November 30, 2015 was due to the reduction of accounting and filing fees.

The increased loss incurred in the quarter ended February 28, 2015 was due to the write-off of Gunpoint Properties in the amount of \$473,147 because of prevailing junior resource market conditions, the uncertainty associated with the Company's ability to exploit any future economic benefits from the property and the Company not having sufficient funds to spend on its exploration program.

The Company has no dividend policy and has no intention of developing a dividend policy in the foreseeable future. The Company has paid no dividends and has no retained earnings from which it might pay dividends.

Liquidity

As at November 30, 2015, the Company had working capital of \$488,041 (February 28, 2015: \$544,326).

Other than the mineral property claims listed above, the Company does not currently hold an interest in any other business nor does it have an interest in any fixed assets, other than office equipment directly or indirectly. The Company's activities have been funded through equity financing and the Company expects it will continue to be able to utilize this source of financing until it develops cash flow from future operations.

There can be no assurance that the Company will be successful in its endeavors. If such funds are not available or other sources of finance cannot be obtained, then the Company will be forced to curtail its activities to a level for which funding is available and can be obtained.

Financial Instruments and Other Instruments

The Company classifies all financial instruments as either available-for-sale, financial assets or liabilities at fair value through profit or loss ("FVTPL"), loans and receivables or other financial liabilities. Loans and receivables and other financial liabilities are measured at amortized cost. Available-for-sale instruments are measured at fair value with unrealized gains and losses recognized in accumulated other comprehensive income. These amounts will be reclassified from shareholders' equity to net income when the investment is sold or when the investment is impaired and the impairment is considered less than temporary. Instruments classified as FVTPL are measured at fair value with unrealized gains and losses recognized on the statement of loss and deficit.

	<u>As at November 30, 2015</u>	<u>As at February 28, 2015</u>
	\$	\$
FINANCIAL ASSETS		
FVTPL, at fair value		
Cash and cash equivalents	4,268	4,054
Loans and receivables, at amortized cost		
Short-term investments	496,557	552,553
Total financial assets	<u>500,825</u>	<u>556,607</u>
FINANCIAL LIABILITIES		
Other liabilities, at amortized cost		
Accounts payable	17,373	10,118
Total financial liabilities	<u>17,373</u>	<u>10,118</u>

The Company has designated its cash as FVTPL, which is measured at fair value. The Company has designated its short-term investments as loans and receivables, which is measured at amortized cost.

Credit risk

The Company does not believe it is subject to any significant credit risk although cash is held in excess of federally insured limits, with major financial institutions. As at November 30, 2015, the total amount of financial assets subject to credit risk is \$500,825 (February 28, 2015: \$556,607).

Liquidity risk

Liquidity risk is the risk that the Company will not have sufficient cash resources to meet its financial obligations as they become due (Note 1a). The Company's liquidity and operating results may be adversely affected if its access to the capital market is hindered. The Company has no source of revenue and has obligations meet its administrative overheads, maintain its mineral investments and to settle amounts payable to its creditors. The Company has been successful in raising equity financing in the past; however, there is no assurance that it will be able to do so in the future (Note 1a). As at November 30, 2015, the Company had working capital of \$488,041 (February 28, 2015 - \$544,326).

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The risk that the Company will realize a loss as a result of a decline in the fair value of the term deposits is limited.

Currency risk

The Company may be exposed to currency risk if incurring certain expenditures and holding assets denominated in currencies other than the Canadian dollar. The Company does not use derivative instruments to reduce its currency risk. Assuming all other variables remain constant, a 1% change in the Canadian dollar against the US dollar would not result in a significant change to the Company's operations.

Commodity price risk

The Company is not exposed to commodity price risk as it is still in exploration stage.

Capital Management

The Company's objectives are to safeguard the Company's ability to continue as a going concern in order to support the Company's normal operating requirements, continue the development and exploration of its mineral properties.

The Company is dependent on external financing to fund its activities. In order to carry out the planned exploration and pay for general administration costs, the Company may issue new shares, issue new debt, acquire or dispose of assets or adjust the amount of cash and cash equivalents. The Company will continue to assess new properties and seek to acquire an interest in additional properties if it feels there is sufficient geologic or economic potential and if it has adequate financial resources to do so.

The Company is not subject to any externally imposed capital requirements. In order to maximize ongoing development efforts, the Company does not pay dividends. There were no significant changes in the Company's approach or the Company's objectives and policies for managing its capital.

Related Party Transactions

The remuneration of directors and other members of key management were as follows:

	Three Months Ended		Nine Months Ended	
	November 30,		November 30,	
	2015	2014	2015	2014
	\$	\$	\$	\$
Consulting and legal fees	6,021	9,564	27,795	37,275
Group benefits	-	2,598	4,382	8,167
Total	6,021	12,162	32,177	45,442

As at November 30, 2015 and February 28, 2015, the amount due to related parties included in accounts payables and accrued liabilities was \$nil.

Commitments and Contractual Obligations

The Company has no commitments and contractual obligations.

Off-Balance Sheet Arrangements

The Company has no off-balance sheet agreements.

Recent Accounting Pronouncements

At the date of authorization of these financial statements, the IASB and IFRIC have issued the following new and revised standards, amendments and interpretations which are not yet effective during the period ended November 30, 2015.

IFRS 9 Financial instruments

IFRS 9, 'Financial Instruments': The IASB has undertaken a three-phase project to replace IAS 39 'Financial Instruments: Recognition and Measurement' with IFRS 9 'Financial Instruments'. In November 2009, the IASB issued the first phase of IFRS 9, which details the classification and measurement requirements for financial assets. Requirements for financial liabilities were added to the standard in October 2010. In July 2014, the IASB issued the final elements of IFRS 9. IFRS 9 introduces new requirements for classifying and measuring financial assets, as follows:

- Financial assets meeting both a "business model" test and a "cash flow characteristics" test are measured at amortized cost (the use of fair value is optional in some limited circumstances)
- Investments in equity instruments can be designated as "fair value through other comprehensive income" with only dividends being recognized in profit or loss

- All other instruments (including all derivatives) are measured at fair value with changes recognized in profit or loss
- The concept of “embedded derivatives” does not apply to financial assets within the scope of the standard and the entire instrument must be classified and measured in accordance with the “business model” test and “cash flow characteristics” test.
- The revised financial liability provisions maintain the existing amortized cost measurement basis for most liabilities. New requirements apply where an entity chooses to measure a liability at fair value through profit or loss – in these cases, the portion of the change in fair value related to changes in the entity's own credit risk is presented in other comprehensive income rather than within profit or loss.

The amendments are effective for annual periods beginning on or after January 1, 2018.

IAS 1 Presentation of Financial Statements

IAS 1 ‘Presentation of Financial Statements’ is an amendment to clarify certain aspects focused on the areas of clarification of concept of materiality and aggregation of items in the financial statements, the use and presentation of subtotals in the statement of loss and comprehensive loss, and providing of additional flexibility in the structure and disclosures of the financial statements to enhance understandability. The amendment is applicable to annual periods beginning on or after January 1, 2016.

IFRS 11 Joint Arrangements

The amendment to IFRS 11 clarifies accounting for acquisition of interest in a joint operation. The amendment is applicable to annual periods beginning on or after January 1, 2016.

IFRS 16 Property, Plant and Equipment

The amendment clarifies acceptable methods of depreciation and amortization whereby a depreciation method that is based on revenue that is generated by an activity that includes the use of an asset is not appropriate. The amendment is applicable to annual periods beginning on or after January 1, 2016.

The Company has not early adopted these standards, amendments and interpretations; however, the Company is currently assessing the impact of these standards or amendments on the financial statements of the Company.

Other MD&A Requirements:

Share Capital

The Company is authorized to issue unlimited number of common shares.

As at the date of this MD&A and November 30, 2015, the Company had 11,595,000 shares issued and outstanding.

Stock Options

The Company has adopted an incentive stock option plan (the "Plan"). The essential elements of the Plan provide that the aggregate number of common shares issuable pursuant to options

granted under the Plan may not exceed 10% of the number of issued common shares of the Company at the time of the granting of the options. Options granted under the Plan will have a maximum term of five years. The exercise price of options granted under the Plan will not be less than the discounted market price of the common shares or such other price as may be agreed to by the Company and accepted by the Exchange.

As at the date of this MD&A and November 30, 2015, the Company had 770,000 stock options outstanding and exercisable:

Optionees	Number of Shares	Exercise Price	Expiry Period
Directors, officers and consultants	770,000	\$0.10	July 25, 2018

Control and Procedures

Venture issuers are not required to establish or maintain disclosure controls and procedures (DC&P) and internal control over financial reporting (ICFR). The Company is not required to certify the design and evaluation of its DC&P and ICFR and has not completed such an evaluation. The inherent limitations on the ability of the certifying officers to design and implement, on a cost-effective basis, DC&P and ICFR for the Company may result in additional risks to the quality, reliability, transparency and timeliness of interim and annual filings and other reports provided under securities legislation.

As indicative of many small companies, the lack of segregation of duties and effective risk assessment were areas where weaknesses existed. The existence of these weaknesses is to be compensated for by senior management monitoring, which exists. The officers will continue to monitor very closely all financial activities of the Company and increase the level of supervision in key areas. It is important to note that this issue would also require the Company to hire additional staff in order to provide greater segregation of duties. Since the increased costs of such hiring could threaten the Company's financial viability, management has chosen to disclose the potential risk in its filings and proceed with increased staffing only when the budgets and work load will enable the action. The Company has attempted to mitigate these weaknesses, through a combination of extensive and detailed review by the CFO of the financial reports, the integrity and reputation of senior accounting personnel, and candid discussion of those risks with the audit committee.

Risks and Uncertainties

The Company is engaged in the exploration for and development of mineral deposits. These activities involve significant risks which careful evaluation, experience and knowledge may not, in some cases, eliminate. The commercial viability of any material deposit depends on many factors not all of which are within the control of management. Some of the factors that affect the financial viability of a given mineral deposit include its size, grade, proximity to infrastructure. Government regulation, taxes, royalties, land tenure, land use, environmental protection and reclamation and closure obligations, have an impact on the economic viability of a mineral deposit.

The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts revenues and expenses during the reporting period. Actual results could differ from those estimates.

Annual losses are expected to continue until the Company has an interest in an exploration and evaluation property that produces revenues. The Company's ability to continue its operations and to realize assets at their carrying values is dependent upon the continued support of its shareholders, obtaining additional financing and generating revenues sufficient to cover its operating costs. The Company's accompanying financial statements do not give effect to any adjustments which would be necessary should the Company be unable to continue a going concern and therefore be required to realize its assets and discharge its liabilities in other than the normal course of business and at amounts different from those reflected in the accompanying financial statements.

Any forward-looking information in this MD&A is based on the conclusions of management. The Company cautions that due to risks and uncertainties, actual events may differ materially from current expectations. With respect to the Company's operations, actual events may differ from current expectations due to economic conditions, new opportunities, changing budget priorities of the Company and other factors.

Outlook

The Company's primary focus for the foreseeable future will be on reviewing its financial position, continuing exploration activities on its mineral property and financing new business ventures in the mineral resource industry.

Approval

The board of directors of the Company has approved the disclosure contained in this MD&A.

Additional Information

Additional disclosure of the Company's technical reports, material change reports, news release and other information can be obtained on SEDAR at www.sedar.com.
